

2.—3. září 2019

10th Barrande-Vltava French-Czech Chemistry Meeting

The Barrande-Vltava 2019 Meeting will bring together researchers from France and the Czech Republic working on different aspects of inorganic, organic, coordination and material chemistry covering synthesis and properties of ligands, catalysis, theoretical calculations and biochemical applications.

Hlavní řečníci: Janine Cossy (ESPCI Paris, Francie), Ivan Huc (LMU Munich, Německo), Louis Fensterbank (Sorbonne University, Francie)

6. září 2019

RNA Club 2019

Hlavní témata:

Regulation of gene expression — Pre-mRNA splicing — RNA editing — RNA-mediated epigenetics — RNA degradation and quality control — Noncanonical nucleic acid structures — Translational control — RNA capping — Noncoding RNAs — RNAi and microRNAs

Hlavní řečníci: Mark Helm (Johannes Gutenberg University, Německo), Laura Landweber (Columbia University, USA)

21.—22. listopadu 2019

Molecular Rotor Workshop 2019

This meeting is dedicated to fundamental research in the field of molecular rotors, motors and switches, with special focus on their 2-D and 3-D assemblies. Plenary lectures will consist of experimental and theoretical contributions from organic, supramolecular, physical, and theoretical chemistry and physics.

Hlavní řečníci: Fraser Stoddart (Northwestern University, USA), Ben Feringa (University of Groningen, Nizozemsko), Miguel Garcia-Garibay (UCLA, USA), Alberto Credi (University of Bologna, Itálie)
